OUR MISSION

Established in 1990 as a public, non-profit corporation with 501(c)(3) tax status, the Lewisville ISD Education Foundation helps Lewisville ISD pursue the best possible education for all students by raising funds for student scholarships, teacher grants, and program-based awards. LEF builds relationships with individuals, community organizations, and business leaders to enrich the quality of public education in our 13 communities served by LISD.

LETTER FROM THE EXECUTIVE DIRECTOR

In April of 2022, we hosted what appeared to be one of our largest scholarship ceremonies in a standing-room-only Stuver Auditorium at Lewisville High School. Scholarship recipients, family members, and endowment donors crammed into the space to celebrate a milestone achievement. It was a great night punctuated by many smiles, hugs, and laughs.

What I will always remember about that particular night was the feeling of community that permeated every aspect of the program. Donors connected with students. Parents and grandparents of scholarship recipients bonded with each other as they felt a common pride in the achievements of their respective student. LEF staff, Board of Directors, and volunteers sat in awe as we witnessed the impact and significance of our work. It was a great night that strengthened our commitment to provide the best possible education for every LISD student.

As we look forward to many new initiatives in 2022 and 2023, I want to forge that memory into our efforts and keep it at the center of what we do. The newly created Corporate Leadership Society, while it adds new perks for supporting LEF, is really a vehicle to support students and teachers by welcoming new members into our LEF community. Our recently implemented spending policy is not just a document about financials, but a map to better steward the resources given to us. While our freshly minted Donor Appreciation Dinner will undoubtedly show our appreciation of our most loyal donors, it will still be a night that showcases scholarship and grant recipients. It will aim to remind us once again that our mission to build community advocates for public education is centered on the overwhelming success of so many great people in our cities and neighborhoods.

We are so thankful that you are a part of this community and that you will share in our adventure to inspire learning, reward hard work, and encourage others to not only dream big but to chase those dreams.

If the memory of this scholarship ceremony captures your attention like it does mine, I cordially invite you to attend the 2023 ceremony...but prepare to stand for an hour or so as we frantically search for more chairs.

In Service,

Thomas White, PhD
Executive Director

MEANINGFUL MEETINGS AND MINDFULNESS

Caroline Hinson, a Counselor at Ethridge Elementary in The Colony noticed an increase over the school year of how many students needed to be removed from the classroom under discipline referrals. Recognizing a need to focus on the mental health of her students, Hinson applied for and was granted a \$2,010 LEF grant to implement better mental health practices.

“Learning how to manage and process emotions can be a very difficult skill for students to master. It is something that needs to be hands on and reinforced on a regular basis,” Hinson wrote in her grant proposal. “If a child cannot attend to their emotions and know how to regulate them, it makes it very difficult for them to learn and participate in class.”

Enter the M&M kits – these Meaningful Meetings and Mindfulness Kits are broken into two categories. The first are Brain Break Boxes, a container full of fidget sets and items such as hoberman spheres, pop it keychains and slide puzzles that a student can use to give their mind a quick break and regulate their emotions. The second are Connection Kits designed to help teachers facilitate individual meetings with students and build stronger relationships using games, toys, and questioning stems.

“Allowing the students to have access to the Brain Break Boxes on a daily basis and providing teachers learning opportunities to properly implement them in their rooms will create an environment throughout our school that focuses on equipping students with the tools that they need to manage their big feelings as well as attend to their learning and be successful in the classroom. When children’s social and emotional needs are met, then they begin to flourish and thrive in the academics,” says Hinson.

Every faculty member received training on the proper use of the M&M kits and a set was provided to every teacher in the building, including special education teachers and office staff. Each and every one of the 375 students at Ethridge Elementary had access to the kits and materials provided by this grant.

Using data measurement from district-approved applications as well as observing discipline referrals, the M&M Kits proved to be a success. There was a 43.5% decrease in office referrals from fall to spring semester. A survey sent out to all teachers at the end of the year showed that 77% believed the Brain Boxes were helpful while 64% believed the Connection Kits served a worthwhile purpose.

COUNSELOR

NAVAL ACADEMY GRAD GIVES BACK TO LHS

Peng Thang graduated from Lewisville High School in 2017 as a member of the growing Chin community in North Texas. The community provides deep roots for thousands of refugees, many from Burma like Thang, who are fleeing persecution in their home country. His dream was to one day graduate from the United States Naval Academy and serve his new country as part of the Marine Corps.

“The reason for me being here, my family being here, is because of those great men and women that serve this country, because of that freedom they provide,” Thang said in a 2017 local news article. “They give their lives so people from a foreign country can be here freely, so I ask myself why can’t I do the same thing?”

Thang has officially achieved that dream, graduating from the Naval Academy this past May, but not before deciding to give back to the community that once supported him. While he was on leave in January, he reached out to Ms. Monique Garza, a teacher at Delay

Middle School and who Thang calls his American mother.

“Peng has always had a kind heart, quiet and serious demeanor (until you get to know him), motivated, but will always help people. I am always honored that he calls me mom,” says Garza.

When Thang graduated from LHS, he received one of the many scholarships the Chin community has created at LEF to support graduating Chin students. In a pay-it-forward gesture, he worked with Ms. Garza to create the Peng Chin Thang JROTC Scholarship to support a JROTC student at LHS.

He donated the first installment of his newly established scholarship fund and returned to Maryland soon after. He is now at The Basic School in Virginia learning to be an Officer of the Marines. His scholarship will be awarded for the first time to a 2023 senior - only 6 years after graduating high school himself.

SENIOR SCHOLARSHIPS

COMMUNITY PROJECTS

PROVIDING STUDENTS WITH THE INTERN EXPERIENCE

Lewisville ISD is on the forefront of implementing real-world solutions to ensure graduates are informed and ready for life after school. Aside from the tech centers and Career Out programs, a recent grant from TIAA allows students to complete paid internships from local companies.

“The LISD summer internship program is unique in that it offers students a glimpse into what a career will be like someday,” says Lindsay Ayers, Director of Strategic Partnerships for LISD. “Students are getting to further skills that will

go on a resume and they will be able to reference their experiences in job interviews and college applications. The program is truly remarkable and we are grateful for all of the businesses who worked with our students this summer as well as to LEF for helping make it all possible.”

LISD’s summer internship program works by offering businesses from around the community a spot in the program. High school juniors and seniors applied by submitting essays and teacher recommendations.

A total of 18 students worked at businesses such as Insight Wealth Partners, Platinum Auto Glass, Free Martin Marketing and Media, BbK Services 556, Swag Angels, Stonebridge Health, Renaissance Network Reinvent, Abundance Fundraising, Warrior Doc Wellness Solutions, Novel Coffee Roasters, and Real Life Parent Guide.

Students learned a wide range of technical skills as well invaluable transferable skills. Paid interns worked 15-hour weeks for 6 weeks at \$12/hour.

“This internship was my first exploration into market research and social media marketing. Though very new waters, this internship allowed me to get the help I needed to learn more, strengthen my research skills, and craft an amazing research analysis,” says Meghana Chinta, Lewisville High School student and intern for Novel Coffee Co and The Printed Cup. “I learned how to work professionally with others, to dive into my creative area, and to bloom far past a typical job.”

While the intent for the grant was to offer real-world experience for students, the businesses also greatly benefited from the program.

“Vincent did an awesome job for us, thank you so much for helping us provide this opportunity,” says Dr. Andrew Oteo of Stonebridge Health. “Liliana has been great as well, she has helped us get our social media

strategy going and we have actually seen more business come into our practice over the past few months as a direct result of her efforts. Thank you for allowing us to participate and opening our eyes to how talented these students are!”

“The LEF scholarship helped my family have some breathing room my first semester of college! Being the first one out of my siblings to attend a university, there are a lot of hidden expenses! My scholarship covered more than half my tuition for my first semester of college which helps out my parents a ton.”

“The students were super excited when we got the LEF Grant. We wouldn’t be able to do what we do each day without it. The students see how their voices can be heard now. Getting this grant and being able to buy the broadcast equipment has made this building a whole lot happier each day and the mood is so different around here.”

CARIE KRUEGER
FLOWER MOUND 9 GRANT RECIPIENT, MHS GRADUATE

To the donors of the LISD Employee Giving Campaign,

I can’t thank you enough for your generous investment in my education. I plan to use your scholarship to attend University of Wisconsin - Stevens Point (UWSP) this fall and to pursue a BS in Chemical Engineering and Paper Science. I chose UWSP because of its Paper Science and Natural Resources programs, which are both renowned, as well as for its proximity to both sets of maternal grandparents and extended family.

I’m looking forward to using all that LISD has taught me in the way of education and real life experience and I know that I’m well-prepared for this next step in my life.

Thanks you again for your support,
SOPHIA M. CRAIG
Class of 2022 Graduate, Employee Giving Scholarship Recipient

The names of everyone who donated to the 2022-2023 Employee Giving Campaign may not all be listed within this Annual Report but that’s only because it would turn this publication into a 100 page report before we could finish listing them all. As a community, we are so immensely grateful for LISD’s educators and staff and the fact that any of them participate in Employee Giving is truly a testament to how incredible they are.

1 Stay Connected

Follow us on social media or join our mailing list to stay up to date on news and opportunities!

2 Fundraise

Are you planning a charity tournament? Looking to designate your birthday to a nonprofit? Contact us at info@lisdef.com to learn how to get started!

3 Volunteer

Recruiting enough scholarship readers is our biggest need! Sign up to help each winter at www.lisdef.com/volunteer

4 Donate

Every dollar counts! General donations, matching gifts, estate planning, sponsorships, and In-Kind giving are all impactful ways to support us! Learn more at www.lisdef.com
